

# Fatigue

Fatigue is a very common side effect of cancer treatment that can disrupt your ability to do everyday things. Here's what you can do to help deal with fatigue.

## TRY THIS

**Ask for help.** Reach out to friends and family to help you with chores and errands.

**Set priorities.** Identify the most important tasks each day, and then focus your energy on those tasks.

**Keep a schedule.** Wake up, go to bed, and rest at the same times each day.

**Be active.** Get an energy boost with exercise, even if it's only for a few minutes.

# Infections

Infections begin when germs enter the body and cause harm. Cancer and certain treatments can increase your risk of getting an infection, but you can protect yourself.

## TRY THIS

**Wash your hands.** Keep your hands clean, especially before eating.

**Take care of cuts, scrapes, and surgery wounds.** Clean broken skin and protect it with a bandage.

**Avoid germs.** Stay away from people who are sick or have a cold. Avoid crowds. Make sure your food is clean and thoroughly cooked.

# Skin and Nail Changes

Cancer treatments may cause a range of skin and nail changes, including color changes, redness, itching, dryness, and rashes. You can take care of most of these yourself.

## TRY THIS

**Try gentle products.** Use mild soaps, lotions, and creams.

**Protect your skin from the sun.** Wear loose-fitting clothing and a hat when outdoors. Check with your health care team if it's okay to use sunscreen.

**Avoid hot water.** Shower in lukewarm water and avoid baths.

**Wear gloves.** Cover your hands when you wash the dishes, clean the house, or work in the garden.

# Be Active

Exercise is not only safe and possible during cancer treatment, but it can improve how well you function physically and your quality of life.

## TRY THIS

**Do physical activity.** Being physically active for even just a few minutes a day is helpful.

**Begin with warm-up exercises.** Start slowly and warm up for at least 2 to 3 minutes.

# Healthy Eating

Eating well can help you feel and live better during and after treatment. Here are some tips to help you.

## TRY THIS

**Work with a specialist.** Ask a dietitian to help you create a nutritious, balanced eating plan.

**Shop smart.** Stock your kitchen with healthy foods.

**Practice mindful eating.** Don't get too hungry before you eat. Stop eating when you're full.

# Health Care Team

Cancer treatment typically requires a team of health care professionals, including doctors, nurses, and other staff who help take care of you before, during, and after treatment.

## TRY THIS

**Establish good communication.** Prepare questions, state your expectations, take notes, take notes and bring someone with you to appointments.

**Consider a second opinion.** Ask your doctor for a referral and to share your medical records.

**Prepare for follow-up care.** Connect with your primary care doctor and understand what kinds of procedures and screenings you may need.
